

I am writing to express my feelings against the NAB's petition 04-160 .
Satellite Radio is one of the most valued inventions of the century. I drive
30 miles to and from work and being able to hear traffic and weather for my city
anytime is of great advantage. the multiple varieties of broadcasting available
on satellite radio is unmatched by any radio station and is of great value to
every american who owns it. Lets keep the land of the free just the way it is -
free
